HEDIS® MY 2025 Well-Child Visits in the First 30 Months of Life/Well-Child Visits in the First 15 Months) (W30)	NCQA	1392

* Denotes measures for which Participating Entities (PEs) ranked within the top 30% of PEs for an individual quality gate measure (GSD and ED visits per 1000 MM) at the end of the performance year will qualify for shared savings for that measure, irrespective of whether their score improved or declined compared to the previous year. PEs not ranked in the top 30% for a quality gate measure must demonstrate a year-over-year improvement to be eligible for shared savings. PEs would only qualify for shared savings when both quality gate measure requirements are met.

** The Challenge Pool Score will be based on a subset of four Challenge Pool quality measures selected by each PCMH+ PE from the list of all available Challenge Pool quality measures. The selection of measures will be subject to DSS approval.
